

## **Access to Health for Women: Addressing the gaps with women-led tech solutions**

Receive mentorship, join a community, gain visibility and get funding to grow your business

The Women's Forum is pleased to announce a Call for Initiatives for women entrepreneurs working to increase access to health for women. Tell us about your organisation and join the competition to potentially win the chance of being mentored, profiled and funded by leading corporations. The 10 finalists will be invited to the March event for final jury evaluation, where the 5 winners will be announced.

### **Application process**

**STEP 1: Tell us about your organisation** by emailing us at [DaringCircles@womens-forum.com](mailto:DaringCircles@womens-forum.com) and providing the information below:

Your name and contact information, the name of your business, your location and the geography that you serve.

Please answer the following either by sending us a word document or presentation:

- What access to health challenge is your organisation tackling?
  - Lack of health care providers informed by sex-disaggregated research
  - Barriers to accessing mental health care
  - Limited awareness or access to information
  - Limited physical access to care
  - Lack of confidential or reliable health records or identification
  - Lack of means to pay or time-poverty
- Please elaborate on how your organisation is tackling the above challenge(s)? (300 words limit)
- What is your strategic plan for the next 2 years? How would support from the Daring Circle fit into that plan? (200 word limit)
- Do you have a last message for us? (200 words limit)

**STEP 2: If you are one of our 10 semi-finalists, convince our jury members how your work is having the most scalable impact on increasing women's access to health.**

The second and final step involves your in-person participation at our March event where you will have the opportunity to pitch your organisation to our jury members. If you are selected, prepare a pitch no longer than 6 minutes around the following ideas:

- How is your organisation addressing health care barriers that disproportionately impact women?
- What do you do differently from other businesses? What sets your solution apart?
- What is your story and purpose, and how would support from our global Daring Circle of partners help you have the impact that you desire?
- What would it mean to you to be a member of a global community of entrepreneurs dedicated to women's access to health?
