Annex I - Clause that requires disclosure whenever there is a threshold disclosure requirement in addition to that related to legal thresholds

Excerpt from AXA bylaws

“Article 7 – Share certificate

Fully paid up shares may be held in registered form or in bearer form as the holder so chooses, subject to applicable legal and regulatory provisions.

Shares shall be recorded in accounts under the terms and conditions provided by applicable legal and regulatory provisions.

Any person, acting alone or jointly, who comes to hold, directly or indirectly through companies it controls within the meaning of Article L.233-3 of the French Commercial Code (*Code de commerce*), a number of shares representing 0.5% of the Company’s share capital or voting rights, shall notify the Company by registered letter with acknowledgment of receipt within five days from the threshold crossing. This notification shall detail the total number of shares and voting rights held as well as the total number of securities giving a differed claim to the share capital and the potential voting rights attached thereto.

The notification shall be repeated in the conditions stated above each time an additional fraction of 0.5% of the share capital or voting rights is crossed upward or downward.

In the event of failure to comply with the notification requirements described above, shares exceeding the fraction that should have been notified will be deprived of voting rights at Shareholders’ Meetings if, at such meetings, the notification failure has been recorded and if one or more shareholders jointly holding at least 5% of the share capital so request. Loss of voting rights shall be applicable in all Shareholders’ Meetings that would be held up until two years following proper notification.

The Company may, at its own expense and at all times as provided by law, request from the central depository keeping its securities-issue account any information in order to identify holders of the Company’s securities giving immediate or differed voting rights in Shareholders’ Meetings. The Company may also request information about the number of securities held by each of holders and, as the case may be, the restrictions imposed on the securities.”
